**HTML Structure**
- A header with the site title (e.g., "BoBo the Clown's Birthday Bash")
- A nav section with at least two links (e.g., "Packages", "Contact")
- A main section floated **left** with:
    - A short intro about BoBo
    - A list of party packages
- An aside floated **right** with:
    - Contact information
    - A fun fact or testimonial
- A footer that clears the floats and stays at the bottom

**CSS Styling**
- Use box-sizing: border-box for all elements
- Choose a **color palette** that feels playful and kid-friendly
- Use **rounded corners**, **padding**, and **margins** to improve layout
- Set different widths for main and aside (e.g., 65% and 30%)
- Add a background color to each section to visually separate them

---

**Extras**
- Add a clown image (free and in the public domain) to the header
- Include a "Back to Top" link
- Add hover effects to navigation links
- Add rounded corners and shading
